Building Permits In Belle Glade Hit New Peak In 1954

Construction for one year hit a new high in Belle Glade during 1954 when \$94,355 in building permits were issued by the office of Building Inspector. The 1954 total topped the previous high set in 1953 by \$52,645.

An increase in building permits issued each year since 1947 reflects the steady growth of the community with only 1948 falling to show a gain over the previous year. The 1954 increase has been attributed to inclement weather and heavy rains which caused an economic statistical drop throughout the entire Glades area.

During the first half of 1954 some apprehension was prevalent when only \$281,650 in permits had been issued. However, in July the County School Board obtained a permit for a new consolidated Negro high school to cost \$235,000, more than the entire amount issued in permits during the first six months. Had October and November permits for building permits been up to the year the total construction for the year would undoubtedly have reached the million dollar circle.

Permits for the year included 18 one-family units, eight for two or more families, 37 alterations or repair permits with the bulk for erection of TV antennas and 15 non-residential units. The 15 non-residential units included two school buildings, the new Chamber of Commerce building, a feed mill, a store and one church, among others.

With the exception of the \$293,000 permit issued to the school board, family unit construction dominated building scene here during the past year.

Projects under consideration and discussion point to another record year in construction for Belle Glade in 1955 if they materialize and no disasters or major proportions overtake the community.

Talk On Welfare Heard At Meeting Of Woman's Club

Mrs. Tom Carle, program chairman on Public Welfare, introduced Miss Bama Rodriguez, local Palm Beach County nurse, as guest speaker at the Woman's Club meeting Wednesday afternoon.

Aberdeen Angus sires, which have regular annual sale of \$2 head at 100 p.m. Monday's sale of calves, 97 head, 109 steers, 102 cows, 28 yearlings, 26 bulks 14% of No. head and 81% of \$ to slaughter.

Club President, Mrs. Marvin Urelin presided at the business meeting and Mrs. Ralph Freeman gave the devotion. Mrs. Urelin read a letter from the local Chamber of Commerce inviting the club to participate in the "1475 highway beautification project."

Mrs. Ivan Van Horn discussed ways in which the club could assist in the beautification, such as keeping our yards free of weeds, and to teach our children to refrain from throwing trash and debris along the highways. She also stated the fact that the club could take as a project the beautification of a section.

The club was that they would cooperate in the project as outlined by the announcements were made of the county federation meeting to be held January 4 and 5 at PFA Father's Night at the school Monday, January 10 at 8 p.m.

Mrs. William Theibaud, membership chairman presented the names of Mrs. M. M. Sabiston and Mrs. Joe Pacey for membership.

The resignations of Mrs. Ben Miller, Mrs. C. Turner, Jr. and Mrs. Robert Ford were accepted with regret.

The president appointed Mrs. Francis Harris to replace Mrs. Turner who has moved to Indianapolis, a chairman of the Kindergarten committee and Mrs. William Rhodes a member of

Local Experiment Station Receives Award For Beans

The Everglades Experiment Station has just received notification of a silver medal awarded to the new Seminoles bush bean by All American Selection, Inc. for its meritorious record and high average scoring in their North American district gardens.

American Selection is an official testing organization sponsored by seedsmen to evaluate new vegetable and flower varieties. It conducts tests of new varieties in over twenty wide spread locations in the United States.

This year only two other new vegetable varieties besides the Seminoles bean were given awards. Golden Beauty, a new early hybrid sweet corn developed at the Massachusetts Experiment Station, recommended for the Northern States and Canada, also received a silver medal. The other new variety, Pennsylvanian Golden Wonder, introduced by Pennsylvania State College, received a bronze medal.

Seminoles, the new highly productive, disease resistant, green, round-podded bush bean recently released by the Everglades Station has shown exceptional

Savings And Loan Association Here Enjoys Good Year

The Everglades Federal Savings and Loan Association of Belle Glade enjoyed another banner year in 1954 in the almost phenomenal growth it has experienced since being organized and chartered in 1934.

A statement of condition as of December 31, 1954, which appears elsewhere in this issue of THE HERALD, shows assets of \$6,832,954.54 as compared to \$5,704,093.38 one year ago. The statement also reveals that \$5,711,394.82 is out on first mortgage loans with loans being made on 60% of the appraised value of property.

During the past year 105 new loans were made averaging \$7,500, each, bringing to 1,025 the total number of loans now on the association's books.

Probably the most significant factor in the past year's business of the association is the 350 new accounts which were opened. These new accounts represent the largest number in any one year since the institution has been operating, and the \$1,000,000 in new savings.

The savings and loan organization paid dividends at the end of 1954 for a total for the year of \$186,510.35.

Chartered in 1934, the organization started with \$250,000 in capital. In 1954, the organization had a total of \$1,000,000 in capital. In 1954, the organization had a total of \$1,000,000 in capital.

Announcement of Representative Roberts' appointment to the appropriations committee was made Wednesday. He is one of only two "freshmen" lawmakers who will serve on the 40-man committee. Membership on this committee is usually reserved for seasoned and tested legislators.

The committee is headed by Rep. James S. Moody of Plant City as chairman with Rep. Henry Land of Orlando as vice chairman. Chairman Moody has been instructed by Speaker-elect David to begin meeting with the budget committee January 11.

Representative Roberts marks his as an established friend of the administration which took over the reins of state government this week with the inauguration of Governor LeRoy Collins.

Claims Being Taken Of Jobless Federal Workers In Area

A. M. Larrimore, Manager of the Florida State Employment Service office, has announced that the office is starting taking claims from jobless federal workers in this area on January 10.

Benefits, he said, will be paid unemployed federal workers for weeks of unemployment beginning after December 31, 1954, on the same basis and under the same conditions as they are paid employees of private employers covered by the Florida Unemployment Insurance Act.

Legislation to provide this extension of coverage was enacted by the third Congress and went into effect on January 1, Larrimore said. Under an agreement with the Secretary of Labor, the federal government will be treated like private employment for unemployment insurance purposes, he said. Florida will be reimbursed by the federal government for all benefits paid federal workers over and above what they would be entitled to receive if they earned in private employment.

He explained that weekly benefits payments range from \$5 to \$20 under the Florida Act. The new law will make a new claimant eligible for federal employment in his base period will be taken into account.

Anyone now receiving unemployment benefits based on private employment may now receive previous employment with the federal government, which may be basis for increasing his

Want A Job?

Since City Engineer Ira Vail, who for perfection of the duties of building, electrical and plumbing inspector, has resigned to be effective not later than January 15, the city is looking for a qualified man for the inspectors position.

Starting salary is not to exceed \$350 per month depending on qualifications and experience, according to an advertisement for applicants for the job in this issue of THE HERALD. It is a civil service position.

If you are qualified and are looking for a job, see City Clerk Frank Anderson at the city hall for an application blank.

New South Bay Bond Election Date To Be Set

At a special meeting of the South Bay City Council Tuesday afternoon the city council voted to postpone the proposed bond election set for next Friday, January 14, to a later date to be set at the regular meeting of the council next Monday night was carried. As a result preparations for the bond election which had been scheduled for next week were stopped until a new date for the election is set.

Police Chief R. C. White of South Bay, who also acts as city manager, pointed out that the lack of information conveyed to freholders who had been eligible to vote in the bond election was the principal cause for the postponement. Plans are being made to get the information as to the purpose and intent of the bond issue to the voters so that they may be fully informed before being called upon to decide the issue at the polls.

The original bond issue was to have been for \$125,000 to be used for the expansion of the city water works and \$50,000 to retire the existing mortgage on the city hall to reduce the interest rate. J. R. Durranne has been retained as fiscal agent for the city in connection with the bond issue and will probably come to set in that capacity when the election date is set.

Other speakers will include Dr. C. W. Kidd, veterinarian, George Wedgworth, cattleman, and George Young, manager of the livestock market.

In the BPWC hearing on Collegiate Nursing, Miss Charlene Williamson, Florida State Nursing student, who is interned in Public Health, will present a paper on County health unit here, gave a talk on the history of collegiate nursing schools at the first meeting of the BPWC this year held at the home of Mrs. Ueber Caruthers Tuesday evening.

BPWC Hear Talk On Collegiate Nursing

Miss Charlene Williamson, Florida State Nursing student, who is interned in Public Health, will present a paper on County health unit here, gave a talk on the history of collegiate nursing schools at the first meeting of the BPWC this year held at the home of Mrs. Ueber Caruthers Tuesday evening.

Miss Williamson stated that collegiate nursing schools in the state of Florida is something new and that Florida State University was the first white school to initiate a collegiate program, consisting of four years training and on completion nurses receive Bachelor of Science degree in nursing.

She explained the program in which the time is budgeted over the period of four years, with internship for nursing at Jackson Memorial Hospital in Miami. Following completion of public health training here the nurses will go to Chattanooga State Hospital to receive training in that branch of nursing for two months and then graduate in August. This class will be the second one to graduate since the beginning of the collegiate program.

During the business session presided over by Miss Bama Rodriguez, plans were discussed for the local club's participation in the state Business and Professional Women's Convention to be held at the Boca Raton Club in May.

Miss Sara Lee Creech was appointed the convention chairman for the Belle Glade club.

Mrs. Ruth Wedgworth renewed her membership in the club and the club voted unanimously to present to Mrs. Armenta Creech a life time honorary membership.

Rams Win 54-36 Over Stuart High

A well rounded attack, featuring ball control and excellent rebounding, carried the Rams to their second basketball win of the season here Tuesday night as they defeated Stuart High 54-36.

Belle Glade had complete control of the game from the first half. The law of averages began to pay off as the Rams scored 28 points in the third quarter, tallying 42 points and allowing the lone 8 by 8. The Rams scored 28 points in the third quarter, tallying 42 points and allowing the lone 8 by 8.

The losing Stuart team, led by Dick Stearns with 11 points, held a slim 19-14 half-time lead but couldn't keep up with the Rams in the second half.

Belle Glade's "B" team won the preliminary game 62-35 with a 34-16 second half.

Coch Coach Ouellette reported that the loss to two boys would weaken the "B" team. Both boys were dismissed from the team as a violation of training rules.

Trophy Is Offered For Best Percentage Of Qualified County Voters Casting Ballots

The Belle Glade Junior Chamber of Commerce will offer a "get out the vote" next Tuesday in the special election to choose a Congressman from the Sixth Florida District to fill the vacancy caused by the death of Congressman Dwight L. Rogers.

At Cone of West Palm Beach, district vice president of the Junior Chamber of Commerce, is offering a trophy to any Jaycee organization in the county which is successful in getting out the highest percentage of qualified voters in the area in which they are located, going to some county Jaycee organization at each election until the same group wins it three times in succession to gain permanent possession.

Belle Glade, the Junior Chambers in West Palm Beach, Delray Beach and Lake Park will be competing for the trophy which will be awarded on the highest percentage of registered voters in the organization's area casting ballots in any election which is county-wide.

As the trophy is written, the organization is in charge of the drive to get voters to the polls in the special election. He has provided for a sound car, manned by Fred White, to cruise the entire Glades area from Canal Point to Lake Harbor to remind voters of the election that day and urge them to exercise their right.

In Belle Glade and Pahokee theatres are running "trailers" for the election. The trailers are "Voted - Did You?" which will be issued at the polls by the Jaycees. Those who come out of the voting booths, Members of the Business and Professional Women's Club will go down the list in the phone book to remind residents with phones of the election. The trailers to the polls will be available for those who need it by calling either 3250 or 2741.

It is understood that Jaycees in Clewiston and Lake Worth have been asked to bring a trophy to the local Jaycees on the highest percentage. Whether the challenge will be accepted or not remains to be seen.

The undertaking of the Jaycees in the special election is commendable and certainly worthy of the Jaycees in the qualified voters of the county.

90 Polio Cases In County During '55

A total of 90 polio cases — 55 of them active cases — were handled by the Palm Beach County polio chapter during the past year.

This record number of cases were listed in the county group's annual report released this week. Of the 90 cases, the report said, 55 were active and required aid from the chapter, 30 were suspected cases and five cases were carried over from

last year. Financial aid from the chapter for the year's polio victims totaled \$38,508 with an additional \$32,700 allotted to cases from previous years but still under treatment.

County polio cases were treated at St. Mary's Hospital and Pine Ridge Hospital here; at New York State Rehabilitation Hospital, John A. Andrew Memorial Hospital at Tuskegee and Variety Children's Hospital at Miami.

The county chapter also carried on treatment for cases at the Palm Beach County Crip-

pled Children's Clinic in Palm Beach and shared in the expense of braces and surgery at Variety Children's Hospital, the report said.

During the month of January, the county chapter will carry out its annual fund campaign—the March of Dimes drive to raise funds to combat polio in this area.

There are all kinds of happy people in this world... but usually they're the ones that don't go around telling everyone about it. I, Phil Lucido of St. Louis is different. Phil got tired of reading all the disclaiming notices in the want ad columns of his newspaper... so he put his own ad in the paper. Here's how it read:

"I am responsible for all debts and obligations of my wife, Charlotte T., both present and future, and am more than happy to be the provider for a woman who has borne me six lovely children and, with an abundance of love and care, has made the past 21 years the most beautiful of my life. On this eve of our 21st wedding anniversary, I wish to publicly express my gratitude (signed) Philip C. Lucido."

A young fellow up in Buffalo, New York, has seen the picture "Gone With the Wind" 24 times, and he has read the book 32 times. He sounds real gone. We hope you'll make it a habit during the 25 weeks of 1955 to stop in regularly at our fountain and lunch counter. We serve breakfast and lunch lunches at noon, sandwiches and delicious pies as well as hot bed and free complete fountain service specialties. Drop in at GLADES DRUG STORE.

Churches of Christ, Scientist

How purification of thought brings freedom from fear, sickness, and sin will be the topic at an Christian Science service Sunday.

Keynoting the Lesson-Sermon entitled "Sacrament" is the Golden Text from John (4:23): "The hour cometh, and now is when the true worshippers shall worship the Father in spirit and in truth."

With Key to the Scriptures by Mary Baker Eddy, the following passage will be read (242:1-3): "Through repentance, spiritual baptism, and regeneration, mortals put off their material beliefs and false individuality. . . Denial of the claims of matter is a great step towards the joys of Spirit, towards human freedom and the final triumph over the body."

Scriptural selections include this Beatitude from the Sermon on the Mount (Matthew 5:8): "Blessed are the pure in heart for they shall see God."

Palm Lake Assn. To Meet Jan. 11

The Palm Lake Association will meet January 11 at the First Baptist Church in Lake Worth. The executive board meeting will be held at 10:00 o'clock and the regular meeting at 11:00.

The guest speaker will be Armand Ball of Jacksonville. The usual conference will be held in an unusual way. There will be special music, good fellowship and a sandwich luncheon.

Home Mission Study

Mrs. John Crabtree of West Palm Beach, Mission Study chairman, announces that she will conduct a home mission study institute on January 20 at the First Baptist Church, W. Palm Beach.

HOW CHRISTIAN SCIENCE HEALS

"A Proof That Prayer Heals" WSWN Sundays 9:00 a.m. 9:30 a.m.

TODAY'S meditation

Read Philippians 2:1-13 First a willing mind, (I Corinthians 6:12) Our praying is of little value if we have closed minds. When our ideas are set, our conclusions reached, and our opinions considered final, the work of God becomes meaningless for our lives. The Christian's purpose in praying is to bend his own will to the will of God.

One day in a young adult Sunday school class the teacher mentioned how our gifts of money to the church are an expression of our belief in the church and our concern for its work. Quickly one of the young men spoke up and said that what he gave had nothing to do with his belief and nothing to do with his interest in the church. It may well have been the truth. But any efforts on the part of the teacher to bring him to accept a larger meaning of stewardship failed. Why? Because the young man was sure he knew the answer, his opinion was final, his mind was closed.

Vital, meaningful praying is the result of open, receptive minds. God reaches our lives when entrance to our hearts is freely given.

PRAYER

Our Father, we thank Thee that we can possess childlike faith — faith to recognize our blessing as gifts of Thine, faith to accept Thy will for our lives, faith to call upon Thee, for strength and help. Through Christ, our Lord, who teaches us to pray, "Our Father who art in heaven. Amen."

THOUGHT FOR THE DAY

Through prayer we yield our will to God. R. L. Krepps (Ohio)

SUNDAY SCHOOL LESSON FOR JANUARY 9, 1955 — BASED ON THE INTERNATIONAL BIBLE SCHOOL LESSON FOR CHRISTIAN TEACHING

SUBJECT — THE LIVING GOD

Scripture Lesson — Exo. 3:1-16; Psa. 103:1-13; Isa. 40:24-29; Matt. 6:9-13; John 4:22-24, 10:38-42.

A. D. 1955 is about a week old and God still lives just as He was living when in 712 B. C. Isaiah spoke those immortal words as recorded in the Holy Scriptures. This is a fact, irrespective of what the COMMUNIST SAYS to the contrary. HE lives, yes, just as he was living when the conversation with the woman at the well took place in A. D. 27. This, in spite of the teachings of the communists. Indeed He lives just as HE was living when Paul, the apostle, visited Athens in A. D. 51, all of this historical background being recorded for those inspired men of old and handed to us in the HOLY BIBLE the word of the Living God.

Isaiah spoke in Jerusalem. The Sermon on the mount was delivered somewhere in Galilee. The conversation with the woman was held near a place called Sychar and Athens was the great intellectual center of Greece.

Again, let us repeat with emphasis that HE SURELY LIVES. THE LIVING GOD, the same yesterday, today and forever. All powerful and all merciful. Now, what is this God? "God is a spirit, infinite, eternal, and unchangeable, in HIS being, wisdom, power, holiness, justice, goodness, and truth." God is the God of man, who has strong faith. If we live in the fear of God, we have no fear of man. "Like as a father pitieth his children, even so the Lord pitieth them that fear him." We, as smart as we sometimes think we are, are no mystery to HIM for he made us and HE knows our frame. Isaiah prophesied the coming of John the Baptist and it was God who inspired and told this Isaiah what to prophesy. John the Baptist, the forerunner of THE LORD JESUS. See St. Matthew in this third Chapter. Here also, you may be interested to know that the spherical shape of the earth was given us. This was 2200 years prior to the discovery of America by Ole Columbus. Greek philosophy was not even born then. Yet, the mysteries of God are something to behold and especially in the light of HOLY Scriptures.

Christ taught certain truths about God, very, very, definite truths. God is our Heavenly Father, "the Father who is in heaven." He is our Father who art in heaven." The interpretation of this title has been absolutely ignored by some theologians and students and men in the sect; that Christ called God "Father" almost forty times (including parallel references in the Gospels). Certainly, a name that was on the lips of Jesus more than any other title, deserves our best and most reverent consideration. That is, of course, if we recognize in Christ the perfect revelation of God. And, incidentally, Christ tells us to say "Our Father" not "My Father." "Our Heavenly Father, yours, mine, THE LIVING GOD and the Father of our SAVIOUR OF THE WORLD, Jesus Christ. "The God that made the world and all things therein, he, being Lord of Heaven and earth, dwelleth not in temples made with hands."

"But whom then will ye liken Me?" In Hailcock's "Best Modern Illustrations, this story is told. "More than fifty years ago a memorable dinner was held in the parlors of the contemporary English thought were there. There were no set addresses. There was no topic assigned. Dean Stanley was asked to preside and he proposed for discussion this question, "Who will dominate the Future?" Professor Huxley spoke first. After preliminary skirmishing he gave this as his opinion, "The future will be dominated by the nation which sticks most closely to the facts." He left his audience profoundly affected by the dominance of physical science and the material data furnished by it. After a moment of silence the dean called upon Edward Mial, member of Parliament and president of the Royal Commission on Education. "I have," said Mr. Mial, "been listening that speaker with profound interest, and agree with him that the future will be dominated by the nation which sticks most closely to the facts; but I want to add one word, 'ALL' the facts." The greatest fact in history is God!

As time goes on, it will indeed be interesting to see whether our country will continue to be the dominating influence in this crumbling world. Will we stick to the facts? Let us think about it in 55.
